

Dear Student,

First, let me thank you for your interest in human geography. I am excited to work with you throughout the upcoming school year.

Second, let me give you some reassuring news. There are no map quizzes in this class. That's right, you will not be required to memorize every country in the world. However, I do require you to know certain important ones that come up over and over again in this course.

On the next page, you will find a list of thirty-seven countries that I call our "Focus Favorites" and "Others of Interest." On that page, you will find a set of directions as to what I want you to do with those countries.

This assignment is due to me the first day you walk into my classroom—the first day of school (August 8) for seniors, juniors, and sophomores, and the second day of school for freshmen (August 9). It will be graded for completion, and will count as a classwork grade.

If you have any questions, my contact information can be found below.

Sincerely,

Brantly Medders
